

Stop Valve 8040

GS 1 series, DN 15 up to DN 150

Pneumatic piston operated stop valve for switching of neutral through to highly aggressive media in process engineering, chemical industry and for plant equipment.

- Space saving wafer-type construction
- Lowest possible weight (especially in larger sizes)
- Low operation noise level
- Control of high differential pressures with small actuators
- Greatly reduced energy consumption rates due to short strokes and low actuating force

Technical Information

Body design	flangeless, wafer-type construction dimensions acc. DIN EN 558-1 series 20 for flanges acc. DIN EN 1092-1 form B more versions see on data-sheet 8040-GS3		
Nominal sizes	DN 15 up to DN 150		
Nominal pressure	PN 40 according DIN 2401 also for flanges PN 10 to PN 25		
Media temperature with metal bonnet	body 1.0619	-10°C up to +350°C	
	body 1.4581	-60°C up to +350°C	
Ambient temperature	body 1.0619	-10°C up to +150°C	
	body 1.4581	-20°C up to +150°C	
Pilot pressure	maximum 10 bar (higher on demand)		
Leakage	disc pair carbon-stainless steel	disc pair SFC	disc pair STN 2
(% of Kvs)	< 0,0001	< 0,0005	< 0,001
IEC 60534-4	IV-S1	IV-S1	IV
EN 12266-1	D	E	E

Kvs-values see data sheet 8001.

Packing tested according to TA-Luft as defined in DIN EN ISO 15848-1 and VDI 2440

Options:

- stainless steel bellows
- electrical position indicator
 - inductive switches
 - contact switches
 - manual operation
- pilot valve
 - 230 V AC
 - 24 V DC
- AS-I control head
- complete stainless steel version
- version free of oil and grease

Admissible Differential Pressure (For temperatures of up to 120°C)

For temperatures of 120°C and above: obey application limits !

Limitation for SFC-sliding discs: 300°C

Materials

Body	carbon steel 1.0619	stainless steel 1.4581 or 1.4408
Bonnet	brass, chrome coated (actuator Ø50 mm, Ø80 mm) aluminium anodised (actuator Ø125 mm)	
Actuating springs	stainless steel 1.4310 (actuator Ø50 mm, Ø80 mm), spring steel wire C, zinc coated (actuator Ø125 mm)	
Packing	PTFE carbon filled (spring 1.4310)	
Piston rod	stainless steel 1.4571, roller burnished	
Bellows	stainless steel 1.4571	
Fixed disc	stainless steel 1.4571, coated	STN2-disc
Moving disc	standard: special carbon material	SFC-disc STN2-disc
Coupling ring for disc	stainless steel 1.4581
